### Remuneration report (Item 15)

### Authorisation for repurchase of own shares (Item 16)

The Board of Directors proposes that the AGM renews the Board's authorisation to decide on the repurchase of the Company's own shares. Such a mandate would authorise the Board to make decisions regarding the repurchase of the Company's shares during the period until the next AGM.

Any such repurchase could be effected both via the stock market and by offers to the shareholders. The proposal is that the mandate to the Board should also include the scope for assigning repurchased shares within the constraints of relevant legislation.

**Authorisation for a new share issue (Item 17)**

The Board of Directors proposes that the AGM renews the Board's authorisation to decide on a new issue of Class B shares corresponding to a maximum of one tenth of the Company's issued shares. Such a mandate would entail the Board being able to make a decision on a new share issue during the period until the next AGM. The terms of the issue, including the issue price, must be based on a market assessment in which the issue price in each case is set as close to the market value as possible, less the discount which may be necessary to generate interest in the subscription.

In order for the resolution on authorisation to be valid, it must be supported by shareholders representing at least two thirds of the votes cast as well as the shares represented at the AGM.
